Intellectually Challenged Phone

BURK TECHNOLOGY

Monitor and Control multiple sites from one app.

- Customizable user interface
 - Critical Data at a Glance
 - Detailed Data as Needed
- Powerful alarm management
- Custom report generation

Two Solutions...

To meet your capacity and budget requirements

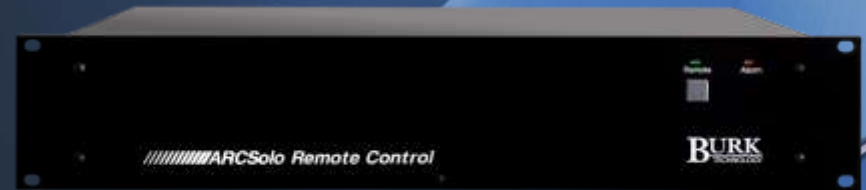

//////////ARCPlus

Comprehensive and Flexible

Expands to an unlimited number of sites with up to 256 channels of status, meters and control per site.

//////////ARCSolo

Powerful yet Simple

Sophisticated all-in-one remote control - when expansion is not needed.
